Fitting Instructions – Atlantic Magnetic Latch 3”

ML3(finish)

Date Modified: 10/08/2022

Last modified by: Alice W

For best results when fixing a magnetic latch follow these instructions.

Atlantic recommends this product is fitted by a joiner.

Before beginning installation, check the product is as required/ordered.
You will also require a combination square or steel ruler.

Separate out all components supplied as follows:
X1 Magnetic Latch
X1 Dust box (must use included)
X1 Strike Plate
X4 Screw

1) First, mark out the desired position of the latch on the leading edge of the door.
2) Then, router mortice for the latch body.
3) Using the latch, mark out the spindle backset.
4) Insert the latch into the mortice. Ensuring that orientation is correct (see latch icon).
5) When the latch is inserted into the door, mark out for the face plate.
6) Then, rebate out for the face plate.
7) Now, fix the latch into the door using X2 of the screws provided.
8) Using a combination square, measure across from the center of the latch to the edge of the door.
9) Transfer the dimension into the desired position on the door frame.
10) Mark out the dust box and strike plate.
11) Now, router out for the dust box and rebate out for the strike plate.
12) Finally, fix in place using X2 screws provided.
13) Close the door to ensure the latch functions as desired.
